

ABSTRACT OF THE DISCLOSURE

A method and system for issuing and printing original electronic certificates or documents directly by service providers on a user's printer, where the printer may not be connected to the user's computer. The electronic certificates may include financial certificates, such as a certificate of deposit and stock certificate, ticket, stamp, payment receipt, and new activated credit card. The service provider is provided with ability to directly check sufficiency of the user's printer supplies, and replenish the printer with needed supplies.
